## I. INTRODUCTION

English Discoveries' Teacher Record Management System provides user friendly, automated monitoring and management tools for all your classes. These sophisticated tools support students individually as well as classes where students have mixed learning abilities. Teachers can reduce the time typically spent managing curriculum software with features like concurrent licenses, an unlimited student database, automated writing evaluation, test scoring, calculation of grades and generation of real time reports. This allows more time devoted to students' English language learning needs and provides decision-makers with the data needed to be informed about their English learning programs.

## II. FEATURE OF THE WEBSITE

The feature will be add such as 1.Home 2.Log in 3.Search 4.Dashboard 5.Subjects 6.Teachers 7.Navigation Bar.etc.

## V. CONCLUSION AND FUTURE WORK

Also, after working on this website I've become very interested in learning more about Bootstrap/CSS so that will be one of my areas of interest to do some independent making website on. Ultimately, I would really like to pursue web design as a career path and I enjoy working with this website making code,

## ACKNOWLEDGMENT

I would like to thank my honourable **Khan Md. Hasib Sir** for his time, generosity and critical insights into this project.
